

SIXTH FORM SUMMER TRANSITION TASK

| | | |
|---|-----------------------------|---------------|
|  | <u>BIOLOGY</u> | |
| | Qualification Level | A-Level |
| | Exam Board/ Syllabus | AQA |
| | Contact(s) | Mrs Ballinger |

It is important that you are able to use scientific vocabulary accurately. There are many biological terms that you will be familiar with from your GCSE science course and it is essential that you can understand and use them appropriately. Remember this is a check on what we would expect you to know from your studies at GCSE. You will need to be able to learn, understand and apply a very large number of important key biological terms throughout your studies in A level Biology.

Please complete the supporting [Biology booklet](#)

The Tasks to include:

Section A Complete the 3 tasks (guidance time = 1.5 hours)

Section B Write an essay on the following: (guidance time = 3 hours)
