

This training is facilitated by Sam Moinet

The Educators Coaching Academy (ECA) offers world-class mental health coach training for teachers. The aim is to transform mental health support in schools – not just for children, but for school leaders and educators too.

The benefits of the programme include:-

- Skyrockets the wellbeing of teachers
- Long-lasting techniques proven to boost student mental health
- Staff complete a Five-star CPD programme
- Teachers gain an ICF Accreditation in student coaching

“98% of Teachers (attending training) are better able to help young people to solve their own problems and make their own decisions....The focus is on getting students to come up with their own solutions, which empowers them more than if we just give them all the answers.”

Programme	Day	Date	Start Timing	Finish Time	Venue
