The Olevi - Outstanding Teacher Programme PLUS (OTP+)

April - July 2025

This training is facilitated by Sara-Jane Godfrey

The Olevi OTP PLUS training is carefully designed to further develop truly outstanding teachers: their classroom practice, their depth and understanding of coaching, and their ability to lead and grow the quality of their colleagues' practice.

Participants will gain a deeper understanding of the latest innovative pedagogy and develop the mind, skill and knowledge set to lead teams to create a significant impact. They will engage in the latest research to develop the moral and social capital of the organization.

This programme consists of six sessions focused on leading teaching and learning with a series of post session challenges, completed over a term. A key component of the OTP Plus is that participants will also be working with colleagues back in their school to utilize their professional learning from the programme to support the development of others.

Full attendance at this programme will enable you to develop and lead a learning focused team / organization; coach colleagues and teams to improve practice; model innovative practice across the school or trust; and engage in facilitating research driven CPD.
